AMERICA FOR AMERICANS
McKINLEY AND WILSON ABROAD.

In 1890 William McKinley was burned in effigy in the English manufacturing city of Sheffield; but in 1900 J. Wilson was burned in London because he is the author of a Free-trade Tariff Bill. There are significant facts.

THE SILVER PROBLEM.
Commercial Gazette.

Farmer Anderson has two thousand bushels of wheat. Mr. Jones has a thousand dollars worth of silver bullion.

Mr. Anderson's wheat is worth in the market \$1,000.

So is Mr. Jones's silver bullion.

Mr. Jones goes to Philadelphia, takes his silver to the Mint and it is coined into two thousand nine, nine, pretty silver dollars.

When Farmer Anderson brings along his thousand dollars worth of wheat, Mr. Jones buys it, paying him \$1,000—and he has \$1,000 left with which to buy the wheat of the next farmer that comes along.

This is free coinage. Some people are sure that all the farmers in the country are shouting for it.

We should see a good many strange things in this country if the silver people should have their way.

REPUBLICAN DELIBERATION NINTH DISTRICT.

Pursuant to Rule 19 of the "Rules of the Permanent Organization of Kentucky," a meeting of the Republican Delegates of the Ninth Congressional District will be held in Convention Hall, Louisville, Ky., June 26, 1901, at 10 o'clock a. m. All in favor of the prompt attendance of the delegates at said convention is important and desired.

THERE are 1,000,000 Scandinavians in the United States and about 120,000 of them are voters. Their influence in politics is important, as they are most numerous in a few states and are not distributed throughout the country. There are more than 200,000 Swedes and Norwegians in the state of Minnesota. There are 100,000 Swedes in Illinois, 75,000 Norwegians in Wisconsin, 15,000 Danes in Nebraska, 15,000 in Iowa, and 10,000 in Michigan. These Scandinavians voters are almost exclusively sound money men.

THOUGH Secretary of State GRESHAM was ill for four weeks at the Arlington Hotel, and that illness was known to be serious, President CLEVELAND never called to ask as to his Premier's condition, or to cheer him during his illness. It was expected that the President would appear at the death scene, but he simply telephoned in at 8 o'clock and asked if he could do any good, and on being informed that he could not, excused himself for not coming on the ground that he was ill. Not a word of sympathy or cheer did he send to the family about to be bereaved. Further comment is unnecessary, even on the part of Mr. CLEVELAND's apologetes.

It's a Grand Success.

The fact has been demonstrated by the thousands of testimonials the Mayers Drug Company, of Oakland, Mo., have received that sent its famous Mayers Magneto Catarrh Cure out to the sufferers of catarrh. Mr. Medicine has received such an enormous amount from the people in so short a time as it did. The makers sell the medicine on business principles, and a patient is not required to buy the medicine by the dozen or get a cure. The Mayers Magneto Catarrh Cure sells for \$1 per bottle, one bottle to last for a three weeks treatment. Three bottles is the highest record ever secured to complete a cure. General catarrh one bottle is guaranteed, no cure, no pay.

This is an unequalled offer and if you are a sufferer from catarrh get a bottle from your druggist; if no benefit derived from you nothing. A prominent H. N. Conductor speaks:

Chas. J. Mayers, Jr., April 26, 1901. I have been suffering from catarrh for three years. I have tried every remedy known to me, but have not been able to get a cure. I have been told that the Mayers Magneto Catarrh Cure was the best, and I have bought it. I have used it and I feel that I am cured. I have been told that it was a grand success, and I feel that it is a grand success.

A DISTILLER

Discovered in the Penitentiary at Frankfort.

Moonshine Whisky Manufactured by One of the Convicts.

Molasses, an Empty Barrel, Corn Bread, and Water Brought Together.

Tea Kettle Was Used as a Still—A Drunken Convict Gives the Claw.

FRANKFORT, Ky., May 31.—The most remarkable case of moonshining ever heard of in this, the original home of the moonshiner, has just been brought to light by the capture of the offender, and the discovery of the still. Both were in the center of the state penitentiary, right in the heart of the capital city of the state, and the work was done in broad daylight. A few days ago the warden and deputies found a big mountaineer convict near the cell-house, riotously drunk. To say that they were surprised is putting it mildly.

They at once set to work to discover upon what he had grown drunk and where he obtained it. The mountaineer got sober and confessed that another convict did it. A Negro waiter and assistant cook was found to be the distiller. The mountaineer had told him how to make beer. A "court-martial" was held and all concerned were examined. The Negro said that he made the "beer." He said he used molasses in the bottom of a nearly empty barrel, corn bread and water. After mixing these in the proportions advised by the mountaineer, the "mash" was allowed to stand eight days. Then a big tea kettle was used as a still and the "beer" was made into a big iron pot on the side.

The mountaineer testified that he drank the products of this still, that it was good and that he lost all his two and a half quarts, and that his intoxicated condition was the result. Even now, Warden Greatham is incredulous. He seems to think that something stronger must have been mixed with the "amateur" beer to have made the mountaineer so inebriatedly drunk. He means to test the matter. He has the amateur distiller at work on another mash, and when it is done he is going to see how drunk two half quarts will make an ordinary man. Who the ordinary man will have not yet been decided.

CABINET LADIES SNUBBED.

Told it Was Not Necessary for Them to Accompany the President.

WASHINGTON, May 31.—It appears that President Cleveland himself was not the only one who should have shown an interest in the secretary's illness and did not. It develops that an intimation was given to the ladies of the cabinet that if they were not necessary for them to accompany themselves by accompanying the president on the special train to Chicago.

The inference being that had they cared or been interested in his illness they might have, during the four weeks that Gen. Gresham was ill, at least called on his wife and made it apparent that they felt for her in affliction and anxiety. This in did not include Mrs. Logan, who has been assiduously attentive to Mrs. Gresham during the secretary's illness and done all that could be expected to make the burden lighter.

Remarkable indeed was the contrast in the case of Madame Mendonca, the wife of the Brazilian minister, who called on Mrs. Gresham every day during the secretary's illness, offering her services, cheer and sympathy. She was an intimate friend.

Preferred Death to Work. SHELBYVILLE, Ind., May 31.—Wednesday morning when Sheriff Burke detected the cell of Frank Kellogg, sentenced Tuesday to serve three years in the penitentiary for carving Herman Schwartz, he found Kellogg lying on a floor unconscious, and was almost overcome himself from natural gas, which was escaping from the stove. Kellogg had removed the mixer and placed his mouth over the escaping gas in an effort to commit suicide. He remains in a precarious condition. Kellogg stated that he would rather die than work. He is known as "the man-eater."

Embarras Kills Himself.

CHICAGO, May 31.—Philip C. Doepenschmidt, cashier for Beniger Iron, shot himself in the right temple Wednesday morning, dying almost instantly. In looking over the books Manager Bruckner discovered a discrepancy of \$60. A brief examination disclosed that embezzlement had been going on for some time. Doepenschmidt admitted the charges, but to avoid arrest committed suicide. The amount of the shortage is not known.

Lawyer Sent to Prison.

ELKHART, Ind., May 31.—George W. Post, a Dutch land agent, attorney, convicted in the federal court of embezzlement of \$2,000, was sentenced to three years in the penitentiary for embezzlement of \$2,000. Post is a partner of the firm of Post & Nelson, who three years in Stillwater, and must also pay a fine of \$2,000. The Post Murderer.

ELKHART, Ind., May 31.—A date has been fixed for the hearing of the Post murder case at Kokomo, that of Wm. Cox set for June 27 and of the two Croll boys June 30. These three are held as accessories to the crime, and the result of these trials will go a long way toward clearing up the mystery which has surrounded the murder of Wm. Foster from the date of its occurrence up to the present time.

For Republican National Convention.

PITTSBURGH, Pa., May 31.—This city is making a strong bid for the republican national convention of 1906. The city has secured a grand stand for \$100,000, and much encouragement has been received from national committees.

THE COLIMA.

She Sank in Ten Minutes and 160 Persons Drowned.

A Strong Wind and a Heavy Swell Were Too Much

For the Vessel—Fifty-Four Bodies Brought Into Manzanilla by Searching Parties

—Few Are There to Bury the Dead and to Care for the Living

CITY OF MEXICO, May 31.—Only a meager telegram has been received here from the Colima wreck. At 10 o'clock Thursday night a message was received from the Pacific Mail agency at Manzanilla, saying that the number of lost is 160 and the saved are only 31.

The telegram says that it is as yet impossible for the agency to get a list of the dead or of the survivors. The telegram does not say what proportion of the lost were Americans, nor does it give a hint as to the nationality and residence of those saved. From some unexplainable reason no names accompany the report.

The conductor of the Mexican National train from Manzanilla Wednesday night says there are fifteen Americans among the rescued, but on account of their being out of touch all he was unable to get any names. A special train bearing a rescue party, including four physicians and a priest, went out from Colima to Manzanilla under telegraphic orders from General Manager Herbert, of the Mexican National Construction Co.'s railroad, running between the two places.

They were badly needed at Manzanilla. Most of the people there are panic stricken, and the few skilled workers are almost exhausted in caring for those saved. It is said that fifty-four bodies have been brought to Manzanilla by several search parties patrolling the coast foot and in boats.

As the weather is hot and no means for embalming at hand, these will be buried Friday, and it is apparently impossible to dig graves for the bodies unclaimed by survivors with necessity be interred in long trenches.

The jefe politico, of Manzanilla, has already summoned all the rural forces in the district at Manzanilla, and a garrison of soldiers has been placed on guard to prevent robbery of the dead and to dig graves and trenches.

It is known that some vandalism has been committed. The bodies have been found a short distance from the shore stripped of all valuables and clothing. Severe punishment will be inflicted upon any one who may be discovered at this work.

The dead are laid out as well as the names of Vogel & Co., the agents of the company at Manzanilla, in the Pacific Mail, will permit. Portions of the ship have reached shore, and it is apparent she will be a total loss.

Thirty-Three Canadian Lumbermen Were Swept Away by a Hurricane

OTTAWA, Ont., May 31.—Details have reached this city of the terrible accident which occurred on the Spanish river, by which thirty-three lumbermen were killed and many others injured. They had camped for the night at a crib on the Spanish river, and were sleeping in the crib when the hurricane struck. The crib broke from its moorings and carried the cargo of sleeping men, all unaided of their arms and legs, into the water below. The crib was broken to pieces on the rocks and not a man escaped to tell the tale.

The Spanish river flows into the north channel of Lake Huron at a point north of Manitowish Island, near its mouth. It is a narrow channel, perhaps one hundred inhabitants, situated on the South branch of the Canadian Pacific railway, and the lumbering industry is a lumbering district.

Delegates to the Interstate Conference of Miners Decide Against General Suspension

COLUMBUS, O., May 31.—There will not be a general strike of the miners. This conclusion was reached at the interstate convention of the miners here just before it adjourned Wednesday evening last Thursday morning at 8 o'clock. The action was taken after the adoption of the following resolution:

"Whereas, We now know that the 60-cent rate is established in the Pittsburgh district and in the West Virginia district, and that the miners of Indiana are under contract lasting until July, 1906, and the bituminous miners of the same state are under temporary contract lasting until the 15th of next July, and the northern Illinois miners are also working under agreement, and it would be impossible to get the Pennsylvania miners to come out again, the committee does not deem it advisable at this time to order a general suspension."

The resolution provoked a hot discussion, during which one delegate argued that the present condition of affairs would not be in existence had the general officers performed their duty and ordered a general strike. A general strike, it was argued, would have been a success. The resolution was adopted by a vote of 100 to 10. The delegates to the interstate conference of miners thought he was derelict in action. When the resolution came to a vote the ballot stood 100 for its adoption and 10 against it. As soon as the convention adjourned some of the delegates held a meeting for the purpose of discussing the action of the delegates. It is believed that they will hold out for the scale which was adopted by them at the joint conference of delegates at Columbus, Ohio, though few of them are now in favor of a strike. Some of the more conservative delegates said that a basis of compromise with the Ohio operators will be reached.

HAPPY CUBANS.

Three Spanish Generals Have Been Ordered Home.

They Leave Because the Climate Does Not Agree With Them.

Gen. Marti is Not Dead, at Least the Cuban Leaders who returned from Jackson

TAMPA, Fla., May 31.—The Cuban leaders who returned from Jackson Thursday night are jubilant because the Havana papers, which arrived by steamer Thursday afternoon, bring news of the departure for Spain of three of the generals who have been fighting the revolutionists. These are Gen. Saeledo, Lachambre, and Juan Gen. Saeledo is commander of the division of Guantanamo and Cuba, and Juan is one of the brigades under him. Gen. Lachambre commands the division of Hayama and Manzanillo. Saeledo has already started for Spain.

It is given out by the Spanish authorities that they leave because the climate does not agree with them. The Cuban have it that they leave because they have for their own glorification exaggerated the number of the revolutionists with which they have been engaged, so as to make it appear that they had fought against double the number they had really

Marti is not dead, at least the Cuban leading revolutionists still maintain that the news of his death as published in the Havana papers is a first place they say that he had really been killed. Gen. Santovilla, who is a brigadier general, has been made a field marshal at once, instead of being only congratulated.

Then again Marti's body would have been taken to Havana to be buried. It was first ordered when news of his death first came, and where he is known. Instead the Havana papers say he was quietly and quickly buried at Santiago after being viewed simply by a few Spanish officers, the general public being excluded from viewing the remains.

As to Gen. Maximo Gomez's death, and the story of the revolutionists fighting with a handsome coffin carried in the ranks, they laugh heartily. Another so-called proof of the death of Marti and the possession of the body, which was the receipt by the Campos of his watch and a letter from Mrs. Marti, of New Jersey, on his body, they disprove to their own satisfaction.

Mrs. Marti has asked of the Spanish authorities one of the strongest proofs of the death of Marti, which is the receipt by the Campos of his watch and a letter from Mrs. Marti, of New Jersey, on his body, they disprove to their own satisfaction.

Mr. Marti has asked of the Spanish authorities one of the strongest proofs of the death of Marti, which is the receipt by the Campos of his watch and a letter from Mrs. Marti, of New Jersey, on his body, they disprove to their own satisfaction.

Curiously, an illustrated paper of Havana, contrary to its usual custom, prints the death of Marti. It is the copy of the recent picture of him which appeared in the Herald. It has a correspondent at Santiago, and would certainly have secured a photograph of the body of Marti if one was in existence.

Three of the Negroes have not been seen since. The fourth was beaten and ordered to leave. It is supposed that the three Negroes were lynched.

 Disease is cured not by medical incantations, but by medical science. Hence it is that Ayer's Sarsaparilla cures, and that it cures so eminently successful. It is a skillfully prepared and strictly scientific blood-purifier and tonic, the only one admitted at the World's Fair.

Jackson McClary and Miss Aldora Fry of Lewis county walked and wedded to West Union one day last week to get married because the license doesn't cost so much over there as it does at Vanceburg.

A letter received by Mr. William Brown states that his wife is growing worse and worse each day, and that there is no possible chance for her recovery. She is the lady who was burned so badly in this city several weeks ago.

Patrons and all persons interested in the instruction given in Hayswood—particularly in the Primary Department—are cordially invited to be present at the public examination of that Department on Friday morning, from 10 to 12 o'clock.

Words Failed.
 The silver orator had spoken with great fervor and perspiration. He had exhausted the subject and himself. He had laid bare the hideous conspiracy by which John Sherman and the grasping money kings twenty-two years ago impoverished the tolling masses and plunged the country into financial chaos.

"And now, fellow-citizens," he said, "I am done. I have shown you where we stand and what has brought us here. I have placed before you in all its details the legislative villainy that culminated in East Cleveland, and the degrading degradation of silver, and I have tried to set before you a way of escape from the evil that environ us. In conclusion I shall be glad to answer any questions you may feel moved to ask touching the momentous issues now before the people."

As he sat down a timid earnest looking citizen rose up and said:
 "You have made several references to the crime of 1873. May I ask what the crime of 1873 was?"

The silver orator's jaw fell and rose again, and his lips moved, but no sound came from them.

THE MAYSVILLE REPUBLICAN

WEEKLY PUBLIC LEDGER.

Did U?

Did you ever think that relatives or friends who have moved to distant places—your West, perhaps, to grow up with the country—are always glad to hear from their "Old Kentucky Home"? And did it ever occur to you that a single copy of THE MAYSVILLE REPUBLICAN—the weekly edition of THE Public Ledger—contains more home news than you could embrace in a hundred ordinary letters? And did it ever strike you that you can send the paper to your relatives and friends for a whole year at less cost than you can write a letter a week? Besides, don't you think a year's subscription to THE REPUBLICAN would be a present highly appreciated by those at a distance? Suppose you try it and hear what they have to say on the subject.
